Professional Music Production & Sound Engineering Academy

Where Passion Meets Profession.

WHO WE ARE

The Audio Hub is Chennai's dedicated music production and sound engineering academy. We train composers, producers, engineers and performers through real studio experience and industry workflows. Every course is built around how the industry actually works, taught by professionals with over 19 combined years of experience across Tamil cinema, Malaysian productions and independent music.

Everything Audio, All in One Place

Production • Engineering • Education • Consultation • Live Sound • AI Solutions

PROFESSIONAL SERVICES

● Music Production

We compose, arrange and produce music built around your project and vision, from concept to final master.

● Audio Mixing & Mastering

Professional mixing and mastering that sounds great on every speaker and every platform.

● Sound Design & Foley

Custom sound effects for films, games and digital media. We make your visuals come alive through sound.

● Live Sound Engineering

Full live event audio production including FOH, stage management, monitor mixing and system setup.

● Studio Acoustics

We advise on room treatment, acoustic panels, monitor placement and full studio build planning.

● VST & Plugin Consultation

We help producers choose and configure their software tools and get the most from their setup.

● AI Voice Cloning

Advanced AI voice replication for media, advertising, dubbing and content production.

WHY CHOOSE US

Professional Quality

Industry standard tools in everything we do, every session.

Creative Collaboration

We work around your vision, not the other way around.

Passion for Sound

We love what we do. That shows in every project we take on.

Learn from Experts

9+ years of real industry experience, not just theory.
